DESCRIPTION RATES, IN ADVANCE \$2.50 per Year, \$1.50 Six Months.

Editor and Manager

John M. Cooke.

NOV. 4, 1905

Wailea District Improvement Association years since the organization of the Wailea District Improvement Association and the results obtained justify the claim that this organization has done more to advance the interest of this district than was anticipated by its founders. At the time of its organization the residents of the district were deeply in earnest in their desire to have the Iao Valley road built, that they might drive to the trade lands for a day's outing and view the grand scenery surrounding this most picturesque spot. By the untiring efforts of the officers and members the road is now under course of construction and will soon be completed. To road engineer Harry Howell and Mr. W. O'Connell is due for their untiring efforts in carrying this desire to accomplished fact. Another matter in which the Waileans were deeply interested was the building of a suitable county jail. To the Improvement Association is due the credit of having this building constructed. At the time of its organization garbage was dumped about the town and allowed to rot where it lay, a menace to the public health, an eye sore to the town, and a disgrace to the community. Though the efforts of this body and the generosity of its members a suitable dumping ground was secured and fenced partly to the benefit of the entire community. In former times the town clock has deceived many a tardy juryman and caused him to tremble before his honor, the Circuit judge, many a bad packed husband has had to plead for mercy with his better half for being late for dinner while trusting to the fickle hands of this clock. The Improvement Association has rectified all this and no longer will the excuses of former days be accepted. McGregor's Landing was a matter that all were deeply interested in and now that the contract has been let work will begin as soon as the material arrives from the coast. The Armory is another product of the efforts of the Improvement Association and is now completed. In view of these results it is the duty of every public spirited citizen to lend a hand to keep the Association in working order and we suggest that all who can will attend the meeting next Thursday evening.

Brought Home for Burial The H. A. S. S. "Nebraskan" arrived at Kahului direct from San Francisco at 7:30 P. M. Thursday, November 2nd, bearing the body of Frederick Chambers Baldwin, who died in New York, October 11th. Mr. & Mrs. Frank F. Baldwin and Miss Baldwin were passengers on the "Nebraskan," having accompanied the body of their brother Fred from New York. Only two months ago they all went East together on a vacation; soon after arriving in New York, Fred was stricken with appendicitis and peritonitis. He was operated on by Dr. Bull of that City, but lived only seven days after the operation was performed. Fred was educated in the Eastern States. He spent three years at the Hotchkiss School, Lakeville, Connecticut, and four years at Yale University where he won the hearts of his college fellows, especially his class-mates by whom he was greatly loved. Many of them were in attendance during his last illness, and three or four watched with him constantly from his death, Wednesday night, until the following Saturday, October 14th, when at the request of his friends and classmates, funeral services were held at Dr. McKay's Church in New York. About one hundred of Fred's classmates from Boston, Albany, Pittsburgh, Chicago and other Cities, together with many other friends were present at the services. Beautiful floral offerings were brought to the Church, and on the sad journey across the Continent the melancholy party was met with flowers at Cleveland, Chicago, Oakland, and San Francisco, sent by relatives and sympathizing Friends. The "Nebraskan" on her arrival in port was met by a party composed of Hon. H. P. Baldwin, Mrs. J. P. Cooke, Mr. & Mrs. H. A. Baldwin, and a number of friends who escorted the remains of the lamented young man ashore. Funeral services will be held at 2 P. M. on Saturday, Nov. 4th at the residence of Hon. H. P. Baldwin, Spreckelsville, and the interment will take place at the Makawao Cemetery. The sympathies of the whole community go out to the bereaved parents and family in this their great affliction.

New Management With this issue of the MAUI NEWS Hugh M. Cooke for many years in the employ of the Department of Education assumes the management of the Maui Publishing Company Ltd., and Editor of the MAUI NEWS and makes his initial bow to the public as a newspaper man. The cordial support already manifested by the people of Maui, as well as the friendly expressions from the Honolulu press makes him feel all the more his duty to the public. Under the present management every effort will be exerted to issue a paper which will subserve the ends of use and which will promote the general welfare of the whole community without special regard to any particular section, but always championing any just cause which many be of good to the people of Maui. Our task will be arduous and lack of prior experience will handicap us therefore we ask the cooperation and assistance of the people of this community. We feel that much credit is due Mr. G. B. Robertson the founder and former editor of the News for his energy and ability in making a success of what was then considered a hopeless undertaking. As to Mr. Clement, the late editor of his tragic death, is deeply lamented by the entire force of the News.

Sugar.

RAW.—The general tendency of the raw sugar market during September has been in favor of buyers, and we have seen a decline 1 cents for the month, the opening quotation for 90 deg. Centrifugals, duty paid New York, being 3 15-16 cents, with the closing at 3 11-16 cents. We have not, however, had a corresponding decline in prices abroad, as on September 1 the September option was quoted at 8s. 9d. and October at 9s., equal to 3.82 cents and 3.88 cents respectively, duty paid New York, for 90 deg. test Centrifugals. It will be noted that this equivalent was considerably below the spot quotation for cane sugar, and it became apparent that the latter must decline in competition with Beet Sugars. At the close, however, of the Beet quotation on September 1 on the basis of 8s. 9d. and October at 8s. 9d., a decline of only 1d. for the month, and 3d. for next month, the quotation for the current month being equivalent to 3.86c., duty paid for 90 deg. Centrifugals, or 2 cents less than the present spot quotation for cane sugar. No sales occurred in our market under the basis of 3 15-16 cents until the substance, when H. H. Howell, Son & Co. secured about 20,000 bags of sugar for September shipment on the basis of 3s. 9d., establishing 1 16 cents decline. Our market, however, was very heavy, no buyers remaining being supplied. They refused absolutely to consider any offerings, and on the 15th another decline of 1 16 cents was established by a purchase of a small lot of 600 bags of Porto Rico in port on the basis of 3s. 9d. duty paid for 90 deg. Centrifugals, and while sales were willing to continue on this basis, buyers refused to consider anything except a further decline. No business, however, was put through until the 21st instant, when sellers decided to accept the Federal Sugar Refining Company's bid of 3s. 9d. for 90 deg. Centrifugals, and while sales were willing to continue on this basis, buyers refused to consider anything except a further decline. No business, however, was put through until the 21st instant, when sellers decided to accept the Federal Sugar Refining Company's bid of 3s. 9d. for 90 deg. Centrifugals, and while sales were willing to continue on this basis, buyers refused to consider anything except a further decline. No business, however, was put through until the 21st instant, when sellers decided to accept the Federal Sugar Refining Company's bid of 3s. 9d. for 90 deg. Centrifugals, and while sales were willing to continue on this basis, buyers refused to consider anything except a further decline. No business, however, was put through until the 21st instant, when sellers decided to accept the Federal Sugar Refining Company's bid of 3s. 9d. for 90 deg. Centrifugals, and while sales were willing to continue on this basis, buyers refused to consider anything except a further decline. No business, however, was put through until the 21st instant, when sellers decided to accept the Federal Sugar Refining Company's bid of 3s. 9d. for 90 deg. Centrifugals, and while sales were willing to continue on this basis, buyers refused to consider anything except a further decline. No business, however, was put through until the 21st instant, when sellers decided to accept the Federal Sugar Refining Company's bid of 3s. 9d. for 90 deg. Centrifugals, and while sales were willing to continue on this basis, buyers refused to consider anything except a further decline. No business, however, was put through until the 21st instant, when sellers decided to accept the Federal Sugar Refining Company's bid of 3s. 9d. for 90 deg. Centrifugals, and while sales were willing to continue on this basis, buyers refused to consider anything except a further decline. No business, however, was put through until the 21st instant, when sellers decided to accept the Federal Sugar Refining Company's bid of 3s. 9d. for 90 deg. Centrifugals, and while sales were willing to continue on this basis, buyers refused to consider anything except a further decline. No business, however, was put through until the 21st instant, when sellers decided to accept the Federal Sugar Refining Company's bid of 3s. 9d. for 90 deg. Centrifugals, and while sales were willing to continue on this basis, buyers refused to consider anything except a further decline. No business, however, was put through until the 21st instant, when sellers decided to accept the Federal Sugar Refining Company's bid of 3s. 9d. for 90 deg. Centrifugals, and while sales were willing to continue on this basis, buyers refused to consider anything except a further decline. No business, however, was put through until the 21st instant, when sellers decided to accept the Federal Sugar Refining Company's bid of 3s. 9d. for 90 deg. Centrifugals, and while sales were willing to continue on this basis, buyers refused to consider anything except a further decline. No business, however, was put through until the 21st instant, when sellers decided to accept the Federal Sugar Refining Company's bid of 3s. 9d. for 90 deg. Centrifugals, and while sales were willing to continue on this basis, buyers refused to consider anything except a further decline. No business, however, was put through until the 21st instant, when sellers decided to accept the Federal Sugar Refining Company's bid of 3s. 9d. for 90 deg. Centrifugals, and while sales were willing to continue on this basis, buyers refused to consider anything except a further decline. No business, however, was put through until the 21st instant, when sellers decided to accept the Federal Sugar Refining Company's bid of 3s. 9d. for 90 deg. Centrifugals, and while sales were willing to continue on this basis, buyers refused to consider anything except a further decline. No business, however, was put through until the 21st instant, when sellers decided to accept the Federal Sugar Refining Company's bid of 3s. 9d. for 90 deg. Centrifugals, and while sales were willing to continue on this basis, buyers refused to consider anything except a further decline. No business, however, was put through until the 21st instant, when sellers decided to accept the Federal Sugar Refining Company's bid of 3s. 9d. for 90 deg. Centrifugals, and while sales were willing to continue on this basis, buyers refused to consider anything except a further decline. No business, however, was put through until the 21st instant, when sellers decided to accept the Federal Sugar Refining Company's bid of 3s. 9d. for 90 deg. Centrifugals, and while sales were willing to continue on this basis, buyers refused to consider anything except a further decline. No business, however, was put through until the 21st instant, when sellers decided to accept the Federal Sugar Refining Company's bid of 3s. 9d. for 90 deg. Centrifugals, and while sales were willing to continue on this basis, buyers refused to consider anything except a further decline. No business, however, was put through until the 21st instant, when sellers decided to accept the Federal Sugar Refining Company's bid of 3s. 9d. for 90 deg. Centrifugals, and while sales were willing to continue on this basis, buyers refused to consider anything except a further decline. No business, however, was put through until the 21st instant, when sellers decided to accept the Federal Sugar Refining Company's bid of 3s. 9d. for 90 deg. Centrifugals, and while sales were willing to continue on this basis, buyers refused to consider anything except a further decline. No business, however, was put through until the 21st instant, when sellers decided to accept the Federal Sugar Refining Company's bid of 3s. 9d. for 90 deg. Centrifugals, and while sales were willing to continue on this basis, buyers refused to consider anything except a further decline. No business, however, was put through until the 21st instant, when sellers decided to accept the Federal Sugar Refining Company's bid of 3s. 9d. for 90 deg. Centrifugals, and while sales were willing to continue on this basis, buyers refused to consider anything except a further decline. No business, however, was put through until the 21st instant, when sellers decided to accept the Federal Sugar Refining Company's bid of 3s. 9d. for 90 deg. Centrifugals, and while sales were willing to continue on this basis, buyers refused to consider anything except a further decline. No business, however, was put through until the 21st instant, when sellers decided to accept the Federal Sugar Refining Company's bid of 3s. 9d. for 90 deg.
